

The Society of Chiropractors and Podiatrists issued revised standards for the decontamination of instruments in February 2009. These recommendations included separate decontamination areas similar to the guidelines issued for dental practices. The Society recommended that, wherever possible, an automated method of cleaning is used, ie washer disinfecter. When purchasing a new autoclave, the model should have a printer attached. From 31 December 2010, sterilisation must be at a temperature of 134°C.

Podia Clave +

Designed to give you more high capacity this means that it can take either 6 full size trays or 12 half size clip trays or, with the specially-designed carrier option, 5 cassette/clip trays. All this improving efficiency and reducing costs, whilst taking up much less valuable space.

- 16 litres capacity
- Podia Clave+ is a type B vacuum and non vacuum cycle
- Cycle-all at 134°C
 - a) Non vacuum cycle without drying for loose, solid unwrapped instruments
 - b) Small load vacuum cycle with drying for single pouched instrument tray
 - c) Full load vacuum cycle with drying for multiple pouched instrument trays
 - d) Test pack cycle without drying-for single unwrapped instrument tray
- Fully compliant and CE marked to BS EN 13060:2004

Included in the price

- Printer
- Standard 6 try carrier
- 2 x 282mm trays
- 1 pouch tray

Optional accessories

- PodiaClave clip tray set of 5

Printer Included

8858	Podia Clave + with Printer	£2100.00

1266	TST Controller Indicator 134°C, pk/50	£17.99
1262	Paper for Printer, pk/10	£42.00

Podia Clave

Printer Included

- Portable 9 litre capacity autoclave supplied with printer
- Features a simple one step operation to start automatic cycle
- Fitted with specially designed carrier for 5 clip trays/cassettes
- Sterilises at 134°C
- Supplied with instrument basket
- Chamber diameter: 23.6H x 21W cm
- Maximum instruments length 22.8cm
- Overall size: 33.5H x 34W cm
- Weight: 4.5kg

8971	Podia Clave with Printer	£995.00
1266	TST Controller Indicator 134°C, pk/50	£17.99
1262	Paper for Printer, pk/10	£42.00

Enigma Autoclaves

Manufactured from the highest quality materials providing many years of trouble free service. All units are supplied with a printer as standard enabling full sterilisation documentation to be retained for future reference. Each cycle on the Enigma steriliser incorporates a drying phase. Enigma steriliser operates on a clean water only system totally separating the used and unused water. Using fresh distilled water is strongly recommended. This method dramatically reduces the risk of cross infection of the sterile load by endotoxins that may be present in the used water. The Enigma range is compliant to 93/42 CEE.

Type N= Non-vacuum autoclave for solid, unwrapped instruments

Type S= Vacuum autoclave for wrapped and hollow items

Type B= Vacuum autoclave for pouched or hollow instruments, plus porous loads (gowns, drapes)

Enigma 8L - Type N & B

- 8 litre capacity
- Available as 'N' Type non-vacuum
- Available as 'B' Type vacuum
- Printer as standard
- Clean water operation
- 2 trays - 26 x 13 cm each
- 2 cycle options
- Fast cycle times
- Automatic drying phase
- External dimensions: 50D x 35W x 33H cm
- Chamber diameter: 17cm
- Cycle time 25 minutes

Printer Included

8520	Enigma N8 Autoclave 8L Non Vacuum, Type N	£999.00
8524	Enigma B8 Autoclave 8L Vacuum, Type B	£1225.00
9510	Enigma Printer Paper Roll, each	£6.00

Enigma 12L - Type B

- 12 litre capacity
- Available as 'B' Type vacuum
- Printer as standard
- Clean water operation
- 3 trays - 32 x 16 cm each
- 4 cycle options
- Fast cycle times
- Automatic drying phase
- Bowie Dick test cycle
- Air leakage test cycle
- External dimensions: 57D x 40W x 40H cm
- Chamber diameter: 20cm
- Cycle time 25 minutes

Printer Included

8525	Enigma B12 Autoclave 12L Vacuum, Type B	£1588.00
